---

Here at Dr Ivan's office, we have a close relationship with **Rosemont Specialty Pharmacy** and have full confidence they are able to provide exceptional service to you!

# What is the 340B Program?

The 340B program requires drug manufacturers to sell outpatient drugs at a discount to safety-net providers serving high numbers of low-income Medicare, Medicaid and Supplemental Security Insurance patients. Congress created the program to allow these providers to “stretch scarce federal resources as far as possible, reaching more eligible patients and providing more comprehensive services.” Savings from the program help fund free and low-cost medications as well HIV/AIDS, diabetes, cancer, dental and primary care clinics that serve our most vulnerable citizens.

# Why should you enroll?

## What is the cost to enroll?

Being enrolled in the 340B program is completely FREE.

## What is the cost of 340B Program to taxpayers?

Care provided through 340B savings does not cost taxpayers any money. The care is paid for with the money saved through the price discounts from the manufacturers

## Helping yourself and others

Savings from 340B help fund free and low-cost medications as well as HIV/AIDS, diabetes, cancer, dental and primary care clinics that serve our patients most in need.
