

New Patient Referral Policy

Thank you for choosing **Dr. Ivan's Office**.

To ensure appropriate and timely care, we follow the referral process outlined below:

- Our office must receive a referral from your referring provider before scheduling a new patient appointment.
- Once received, all referrals are personally reviewed by **Dr. Ivan**.
- Appointments are scheduled **only after** the referral has been reviewed and approved by the physician.

This process allows us to confirm that we are the appropriate office for your care and to provide the highest standard of treatment.

We appreciate your patience and understanding. Our team will contact you as soon as your referral review is complete.

(Translation: great care takes a moment—worth the wait.)
